PROFESSIONAL SUMMARY

MSPH Epidemiology student (4.0 GPA) who uses quantitative research and policy analysis to examine health equity. Analyzed California's maternal mental health screening law, county-level disparities in Virginia, and trends in perinatal depression using CDC PRAMS and County Health Rankings data. Skilled in SAS, R, Excel, and Tableau, and in translating findings into clear, evidence-based writing for policy audiences.

EDUCATION

Master of Science in Public Health (MSPH), Concentration: Epidemiology Anticipated May 2027
Liberty University, Lynchburg, VA

- GPA: 4.0. **Relevant coursework:** Biostatistics, Statistical Software (SAS), Epidemiologic Research Methods, Social & Behavioral Theory Application in Public Health, Data Analysis, Data Visualization & Spatial Analysis (ArcGIS, Tableau).

Bachelor of Science in Biological Sciences Mar 2023
Federal University of Agriculture, Abeokuta, Nigeria

POLICY AND QUANTITATIVE RESEARCH

- **California's maternal mental health screening law** (policy analysis, Kingdon's multiple streams): screening rose from 51.4% to 65.9% (2020–2024), but only 47.1% of mothers with symptoms received treatment, exposing a screening-to-care gap.
- **Mental health and provider availability across Virginia counties** (first author; 2025 County Health Rankings, Tableau; VPHA 2026): choropleth maps and trend analyses; frequent mental distress ranged 13.5–23.6%, and childhood poverty explained far more variation ($R^2 = 0.51$) than provider supply ($R^2 = 0.08$).
- **Perinatal depression among Virginia women, 2016–2022** (first author; CDC PRAMS; VPHA 2026): weighted prevalence with 95% CIs; self-reported depression during pregnancy rose from 9.4% to 16.9% (+79.8%) versus +44.8% across aggregate PRAMS sites.
- **Food insecurity across U.S. states** (group project; SAS, Tableau Prep; 255 state-year records, 2019–2023): average state rate reached 14.2% by 2023, highest in the South.
- **Stress-related hypertension among police officers in Ibadan** (intervention proposal): PRECEDE needs assessment, Social Cognitive Theory and IMB model, logic model, stakeholder coalition, and pre/post evaluation plan.
- Co-authored Research Week posters on task-shifted mental health services and maternal vaccination coverage (April 2026).

EXPERIENCE

Graduate Student Assistant Aug 2026 – Present
Liberty University, Department of Public Health, Lynchburg, VA

- Assist faculty with preparing grant applications through Liberty's Office of Sponsored Programs & Research (OSPR).
- Teach class sessions, facilitate discussions, activities, and student presentations, and grade assignments in undergraduate public health courses.
- Organize course materials and administration in Canvas LMS and resolve course-related issues for faculty and students.

Biostatistics and Research Assistant Jan 2026 – Aug 2026
Liberty University, Department of Public Health, Lynchburg, VA

- Conducted independent secondary analyses of wearable-derived health data (mcPHASES, PhysioNet; 42 participants, 4,893 person-days) using linear mixed-effects models to account for repeated measures within participants.
- Supported faculty with data preparation, statistical analysis, and interpretation for public health and epidemiologic research projects.
- Developed and facilitated biostatistics and research workshops to improve statistical literacy and applied data analysis.

Research Assistant Jul 2024 – Nov 2024
University College Hospital (UCH), College of Medicine, Department of Public Health, Ibadan, Nigeria

- Conducted health surveys with 100 workers across police stations in Ibadan for an occupational health study on workplace safety and disease exposure, using Kobo Collect for mobile data collection.
- Ensured data accuracy and confidentiality, improving research quality and processing time.
- Prepared and presented study reports and supported faculty with data visualization and communication of findings.

RESEARCH DISSEMINATION

- Six first-author research posters (APHA 2026, VPHA 2026, Liberty Research Week) on mental health, health equity, and surveillance data; co-author on additional posters and four peer-reviewed publications.
- Abstract Reviewer, APHA 2026 Annual Meeting, including Community Health Planning and Policy Development Late Breakers.

PUBLICATIONS (CO-AUTHOR)

Peer-reviewed publications (co-author):

- Linus EN, et al., **Shobayo IP**. Vaccine hesitancy and immunization inequity in Nigeria: public health determinants, misinformation dynamics, and health system strategies for improved uptake. *Int J Health Pharm Res*. 2026;11(8):32-56.
- Edeh CG, et al., **Shobayo IP**. A machine learning-based framework for real-time environmental health risk prediction and spatial air quality intelligence in urban-industrial ecosystems. *Asian J Adv Res Rep*. 2026;20(4):1-20.

COMMUNITY ENGAGEMENT

Volunteer & Public Health Outreach Leader Apr 2021 – Present

Sickle Cell Hope Alive Foundation (SCHAF), Ibadan, Nigeria

- Led planning and coordination of genotype screening and awareness campaigns reaching 250+ participants; led volunteer teams in education, counseling, and community engagement.

SKILLS

Policy and research: Policy analysis (Kingdon's multiple streams), program planning (PRECEDE, logic models), equity-focused secondary data analysis, literature reviews
Quantitative: SAS, R, SPSS, Python, Excel; regression, chi-square, relative risks, mixed-effects models; Tableau and ArcGIS
Communication: Research posters, scientific writing, presentations, teaching
Training and certifications: Aspire Leaders Program (2026); Data Science Program, TS Academy (2026); CyberGirls Fellowship, Cloud Security (2024); Ethical, Legal, and Social Implications of Stroke Genomics and Neurobiobanking (2023)
