PROFESSIONAL SUMMARY

MSPH Epidemiology student (4.0 GPA, anticipated May 2027) who reviews evidence, analyzes outcomes data, and turns findings into recommendations. Experience includes systematic evidence reviews, county-level analysis of poverty and mental-health access, policy analysis of a maternal mental health screening program, and quality-improvement exposure through a hospital patient-safety observership.

EDUCATION

Master of Science in Public Health (MSPH), Concentration: Epidemiology Anticipated May 2027
Liberty University, Lynchburg, VA

- GPA: 4.0. **Relevant coursework:** Epidemiologic Research Methods, Biostatistics, Statistical Software (SAS), Social & Behavioral Theory Application in Public Health, Data Analysis, Data Visualization & Spatial Analysis (ArcGIS, Tableau).

Bachelor of Science in Biological Sciences Mar 2023
Federal University of Agriculture, Abeokuta, Nigeria

EVIDENCE REVIEW, QUALITY, AND OUTCOMES PROJECTS

- **Mental health and provider availability across Virginia counties** (first author; 2025 County Health Rankings, Tableau; VPHA 2026): choropleth maps and trend analyses; frequent mental distress ranged 13.5–23.6%, and childhood poverty explained far more variation ($R^2 = 0.51$) than provider supply ($R^2 = 0.08$).
- **California's maternal mental health screening law** (policy analysis, Kingdon's multiple streams): screening rose from 51.4% to 65.9% (2020–2024), but only 47.1% of mothers with symptoms received treatment, exposing a screening-to-care gap.
- **Food insecurity across U.S. states** (group project; SAS, Tableau Prep; 255 state-year records, 2019–2023): average state rate reached 14.2% by 2023, highest in the South.
- **Perinatal depression among Virginia women, 2016–2022** (first author; CDC PRAMS; VPHA 2026): weighted prevalence with 95% CIs; self-reported depression during pregnancy rose from 9.4% to 16.9% (+79.8%) versus +44.8% across aggregate PRAMS sites.
- **Stress-related hypertension among police officers in Ibadan** (intervention proposal): PRECEDE needs assessment, Social Cognitive Theory and IMB model, logic model, stakeholder coalition, and pre/post evaluation plan.
- Evidence synthesis: PRISMA-ScR scoping reviews (PMDD, 44 studies; MRKH, 35 studies), narrative review (15 studies), and mini systematic review (Buruli ulcer, 9 sources).

EXPERIENCE

Graduate Student Assistant Aug 2026 – Present
Liberty University, Department of Public Health, Lynchburg, VA

- Assist faculty with preparing grant applications through Liberty's Office of Sponsored Programs & Research (OSPR).
- Teach class sessions, facilitate discussions, activities, and student presentations, and grade assignments in undergraduate public health courses.
- Organize course materials and administration in Canvas LMS and resolve course-related issues for faculty and students.

Clinical Observership: Infection Prevention, Quality & Patient Safety, and Epidemiology Jul 2026 – Aug 2026
Emory Johns Creek Hospital, Emory Healthcare, Johns Creek, GA (volunteer)

- Observed Infection Prevention, Quality & Patient Safety, and Infectious Disease/Epidemiology teams.
- Observed quality-improvement work on hand hygiene and sepsis measures and attended Quality & Patient Safety team meetings.
- Developed an SBAR recommendation on workflow considerations for the SwipeSense electronic hand-hygiene monitoring program.

Biostatistics and Research Assistant Jan 2026 – Aug 2026
Liberty University, Department of Public Health, Lynchburg, VA

- Conducted independent secondary analyses of wearable-derived health data (mcPHASES, PhysioNet; 42 participants, 4,893 person-days) using linear mixed-effects models to account for repeated measures within participants.
- Supported faculty with data preparation, statistical analysis, and interpretation for public health and epidemiologic research projects.
- Merged and cleaned multi-file person-day records, ran quality checks, and documented exclusions and the analytic sample.

Research Assistant Jul 2024 – Nov 2024
University College Hospital (UCH), College of Medicine, Department of Public Health, Ibadan, Nigeria

- Conducted health surveys with 100 workers across police stations in Ibadan for an occupational health study on workplace safety and disease exposure, using Kobo Collect for mobile data collection.
- Ensured data accuracy and confidentiality, improving research quality and processing time.
- Prepared and presented study reports and supported faculty with data visualization and communication of findings.

PUBLICATIONS (CO-AUTHOR)

Peer-reviewed publications (co-author):

- Linus EN, et al., **Shobayo IP**. Vaccine hesitancy and immunization inequity in Nigeria: public health determinants, misinformation dynamics, and health system strategies for improved uptake. *Int J Health Pharm Res*. 2026;11(8):32-56.
- Edeh CG, et al., **Shobayo IP**. A machine learning-based framework for real-time environmental health risk prediction and spatial air quality intelligence in urban-industrial ecosystems. *Asian J Adv Res Rep*. 2026;20(4):1-20.

COMMUNITY ENGAGEMENT

Volunteer & Public Health Outreach Leader Apr 2021 – Present

Sickle Cell Hope Alive Foundation (SCHAF), Ibadan, Nigeria

- Led planning and coordination of genotype screening and awareness campaigns reaching 250+ participants; led volunteer teams in education, counseling, and community engagement.

SKILLS

Analysis and evidence: SAS, R, Excel, Python, SQL, Tableau; regression and trend analysis; PRISMA-ScR reviews; secondary data (CDC PRAMS, County Health Rankings, Feeding America)
Program planning and quality: Needs assessment (PRECEDE), logic models, evaluation planning, process and workflow recommendations (SBAR)
Communication: Research posters, scientific writing, presentations, teaching
Training and certifications: Aspire Leaders Program (2026); Data Science Program, TS Academy (2026); CyberGirls Fellowship, Cloud Security (2024); Ethical, Legal, and Social Implications of Stroke Genomics and Neurobiobanking (2023)
