PROFESSIONAL SUMMARY

MSPH Epidemiology student (4.0 GPA, anticipated May 2027) with Excel, Tableau, SAS, R, and Python skills and experience building dashboards and maps, validating data, and presenting results. Supported an electronic medical records transition with the Virginia Department of Health and wrote an SBAR on workflow for an electronic hand-hygiene monitoring program during a hospital quality and patient-safety observership.

EDUCATION

Master of Science in Public Health (MSPH), Concentration: Epidemiology Anticipated May 2027
Liberty University, Lynchburg, VA

- GPA: 4.0. **Relevant coursework:** Data Visualization & Spatial Analysis (ArcGIS, Tableau), Biostatistics, Statistical Software (SAS), Data Analysis, Epidemiologic Research Methods, Research Methods.

Bachelor of Science in Biological Sciences Mar 2023
Federal University of Agriculture, Abeokuta, Nigeria

PROFESSIONAL AND RESEARCH EXPERIENCE

Graduate Student Assistant Aug 2026 – Present
Liberty University, Department of Public Health, Lynchburg, VA

- Teach class sessions, facilitate discussions, activities, and student presentations, and grade assignments in undergraduate public health courses.
- Organize course materials and administration in Canvas LMS and resolve course-related issues for faculty and students.
- Assist faculty with preparing grant applications through Liberty's Office of Sponsored Programs & Research (OSPR).

Clinical Observership: Infection Prevention, Quality & Patient Safety, and Epidemiology Jul 2026 – Aug 2026
Emory Johns Creek Hospital, Emory Healthcare, Johns Creek, GA (volunteer)

- Observed Infection Prevention, Quality & Patient Safety, and Infectious Disease/Epidemiology teams.
- Observed quality-improvement work on hand hygiene and sepsis measures and attended Quality & Patient Safety team meetings.
- Developed an SBAR recommendation on workflow considerations for the SwipeSense electronic hand-hygiene monitoring program.

Biostatistics and Research Assistant Jan 2026 – Aug 2026
Liberty University, Department of Public Health, Lynchburg, VA

- Supported faculty with data preparation, statistical analysis, and interpretation for public health and epidemiologic research projects.
- Merged and cleaned multi-file person-day records, ran quality checks, and documented exclusions and the analytic sample.
- Tutored residential and online students in biostatistics; created Excel-based tutorials and instructional materials.
- Developed and facilitated biostatistics and research workshops to improve statistical literacy and applied data analysis.

Research Assistant Jul 2024 – Nov 2024
University College Hospital (UCH), College of Medicine, Department of Public Health, Ibadan, Nigeria

- Conducted health surveys with 100 workers across police stations in Ibadan for an occupational health study on workplace safety and disease exposure, using Kobo Collect for mobile data collection.
- Ensured data accuracy and confidentiality, improving research quality and processing time.
- Prepared and presented study reports and supported faculty with data visualization and communication of findings.
- Coordinated study logistics with researchers and supported laboratory data validation.

ANALYTICS AND DASHBOARD PROJECTS

- **Mental health and provider availability across Virginia counties** (first author; 2025 County Health Rankings, Tableau; VPHA 2026): choropleth maps and trend analyses; frequent mental distress ranged 13.5–23.6%, and childhood poverty explained far more variation ($R^2 = 0.51$) than provider supply ($R^2 = 0.08$).
- **Food insecurity across U.S. states** (group project; SAS, Tableau Prep; 255 state-year records, 2019–2023): average state rate reached 14.2% by 2023, highest in the South.
- **Framingham Heart Study secondary analysis** (4,434 participants; regression, Excel): the diabetes–heart rate association (+4.3 beats/min) shrank to +0.9 and lost significance after adjustment.
- **Predicting campaign responders** (group project; Python, SQL; 11,162 records): K-Means segmentation and four classifiers with cross-validation; removed a leaking variable from the model.
- **Menstrual cycle, stress, and sleep in wearable data** (analyst; mcPHASES, PhysioNet): linear mixed-effects models on 3,732 person-days from 36 people; fertility-phase days showed more physical signs of stress than follicular days (β −0.90, 95% CI −1.43 to −0.37), the most stable finding in sensitivity analysis.

HEALTH SYSTEM AND COMMUNITY SERVICE

Volunteer, Electronic Medical Records Transition Sep 2025 – Present

Virginia Department of Health (Near Southwest Medical Reserve Corps), Lynchburg, VA

- Support the transition to electronic medical records across the Central Virginia Health District.

Volunteer & Public Health Outreach Leader Apr 2021 – Present

Sickle Cell Hope Alive Foundation (SCHAF), Ibadan, Nigeria

- Led planning and coordination of genotype screening and awareness campaigns reaching 250+ participants; led volunteer teams in education, counseling, and community engagement.

PUBLICATIONS (CO-AUTHOR)

Peer-reviewed publications (co-author):

- Edeh CG, et al., **Shobayo IP**. A machine learning-based framework for real-time environmental health risk prediction and spatial air quality intelligence in urban-industrial ecosystems. *Asian J Adv Res Rep*. 2026;20(4):1-20.
- Linus EN, et al., **Shobayo IP**. Vaccine hesitancy and immunization inequity in Nigeria: public health determinants, misinformation dynamics, and health system strategies for improved uptake. *Int J Health Pharm Res*. 2026;11(8):32-56.

SKILLS

Analytics tools: Excel, Tableau, Tableau Prep Builder, Power BI, SAS, R, Python (pandas, scikit-learn), SQL, ArcGIS
Reporting and validation: Dashboards and visual reports, data cleaning, quality control and data validation, documentation, presentations to technical and non-technical audiences
Health-system exposure: Hospital quality and patient safety observership, EMR transition support, confidential health data handling
Training and certifications: Aspire Leaders Program (2026); Data Science Program, TS Academy (2026); CyberGirls Fellowship, Cloud Security (2024); Ethical, Legal, and Social Implications of Stroke Genomics and Neurobiobanking (2023)
