Hiring Committee
Inseparable

Re: Development Intern (Spring 2027, Remote, Part-Time)

Dear Hiring Committee,

I am writing to apply for the Spring 2027 Development Intern position at Inseparable. I am a Master of Science in Public Health candidate in Epidemiology at Liberty University with a 4.0 GPA, and my research focuses on women's and maternal mental health. Inseparable's commitment to reshaping the policies and funding that govern mental health and substance use care is the kind of work I want to support.

My research keeps showing me that mental health outcomes depend on policy and funding as much as on clinical care. In a policy analysis of California's maternal mental health screening law, I found that screening rose from 51.4% to 65.9% of mothers between 2020 and 2024, yet only 47.1% of those with symptoms received treatment. In a first-author analysis of Virginia counties, childhood poverty explained far more of the variation in poor mental health than provider supply did. I have also co-authored research on e-cigarette use and depression. These are the gaps Inseparable's state and federal advocacy works to close.

I would bring skills that fit the day-to-day work of a development team:

- **Grant support:** As a Graduate Student Assistant, I assist faculty with grant application preparation through Liberty's Office of Sponsored Programs & Research.
- **Accurate data and tracking:** As a Biostatistics and Research Assistant, I merged, cleaned, and quality-checked datasets of 4,893 records and documented every exclusion. I also collected confidential survey data from 100 workers for a hospital-based study.
- **Process improvement:** During an observership at Emory Johns Creek Hospital, I wrote an SBAR recommendation on improving the workflow of an electronic hand-hygiene monitoring program.
- **Research and writing:** I have screened and synthesized hundreds of studies as first author of scoping reviews, co-authored four peer-reviewed publications, and presented six first-author posters.

Fundraising itself would be new to me, and I am eager to learn it. I am organized, careful with sensitive information, and used to managing several deadlines at once, and I have led volunteer teams and screening campaigns that reached more than 250 people. I would welcome the chance to keep Inseparable's trackers, grant calendars, and donor materials accurate while learning how development work powers policy change.

Thank you for your time and consideration. I would be glad to discuss how I can contribute to your team.

Sincerely,
Ifeoluwanimi Praise Shobayo
