PROFESSIONAL SUMMARY

MSPH Epidemiology student (4.0 GPA) and returning Emory Johns Creek Hospital observer (Jul – Aug 2026) with Infection Prevention, Quality & Patient Safety, and Epidemiology. Co-author of a mixed-methods IPC protocol for long-term care facilities and of an AMR surveillance paper. Brings SAS, R, Stata, Excel, and Tableau skills and prior laboratory biosafety experience, and wants to contribute manageable surveillance, quality-improvement, and data-analysis deliverables.

EDUCATION

Master of Science in Public Health (MSPH), Concentration: Epidemiology Anticipated May 2027
Liberty University, Lynchburg, VA
- GPA: 4.0. **Relevant coursework:** Epidemiologic Research Methods, Advanced Research Methods in Epidemiology, Biostatistics, Statistical Software (SAS), Chronic and Infectious Disease, Data Visualization & Spatial Analysis.

Bachelor of Science in Biological Sciences Mar 2023
Federal University of Agriculture, Abeokuta, Nigeria

PROFESSIONAL AND RESEARCH EXPERIENCE

Clinical Observership: Infection Prevention, Quality & Patient Safety, and Epidemiology Jul 2026 – Aug 2026
Emory Johns Creek Hospital, Emory Healthcare, Johns Creek, GA (volunteer)
- Observed Infection Prevention, Quality & Patient Safety, and Infectious Disease/Epidemiology teams.
- Observed CAUTI and CLABSI prevention rounds and case reviews involving *C. difficile*, ESBL, VRE, and tuberculosis; gained exposure to NHSN surveillance principles.
- Observed quality-improvement work on hand hygiene and sepsis measures and attended Quality & Patient Safety team meetings.
- Developed an SBAR recommendation on workflow considerations for the SwipeSense electronic hand-hygiene monitoring program.

Graduate Student Assistant Aug 2026 – Present
Liberty University, Department of Public Health, Lynchburg, VA
- Teach class sessions, facilitate discussions, activities, and student presentations, and grade assignments in undergraduate public health courses.
- Translate epidemiologic and biostatistical concepts into clear class sessions and instructional materials for undergraduate audiences.
- Assist faculty with preparing grant applications through Liberty's Office of Sponsored Programs & Research (OSPR).

Biostatistics and Research Assistant Jan 2026 – Aug 2026
Liberty University, Department of Public Health, Lynchburg, VA
- Supported faculty with data preparation, statistical analysis, and interpretation for public health and epidemiologic research projects.
- Merged and cleaned multi-file person-day records, ran quality checks, and documented exclusions and the analytic sample.
- Developed and facilitated biostatistics and research workshops to improve statistical literacy and applied data analysis.

Research and Laboratory Assistant Apr 2021 – Oct 2021
Institute for Advanced Medical Research & Training (IAMRAT), UCH, Ibadan, Nigeria
- Rotational placement across six research laboratories; performed malaria microscopy, DNA/RNA extraction, PCR genotyping, and COVID-19 sample processing under biosafety protocols; maintained laboratory records and research documentation.

Research Assistant Jul 2024 – Nov 2024
University College Hospital (UCH), College of Medicine, Department of Public Health, Ibadan, Nigeria
- Conducted health surveys with 100 workers across police stations in Ibadan for an occupational health study on workplace safety and disease exposure, using Kobo Collect for mobile data collection.
- Ensured data accuracy and confidentiality, improving research quality and processing time.
- Prepared and presented study reports and supported faculty with data visualization and communication of findings.

INFECTION PREVENTION AND EPIDEMIOLOGY RESEARCH

- **Infection prevention and control in long-term care facilities** (co-author; mixed-methods pilot feasibility protocol after ELC funding withdrawal; manuscript in preparation).
- **Antibiotic therapy for Buruli ulcer in Ghana** (mini systematic review, PRISMA): searched six databases (126 records) and synthesized nine sources.
- **Mpox epidemiology in non-MSM populations** (first author; systematic review proposal, 2022–2025; Liberty Research Week 2026).

- **Menstrual cycle, stress, and sleep in wearable data** (analyst; mcPHASES, PhysioNet): linear mixed-effects models on 3,732 person-days from 36 people; fertility-phase days showed more physical signs of stress than follicular days (β −0.90, 95% CI −1.43 to −0.37), the most stable finding in sensitivity analysis.
- Co-authored Research Week posters on post-surgical VTE prophylaxis, maternal vaccination coverage, and vaccine hesitancy (April 2026). Co-author of Research Week poster on IPC infrastructure vulnerability after ELC funding retrenchment.

PUBLICATIONS (CO-AUTHOR)

Peer-reviewed publications (co-author):

- Odekunle YO, **Shobayo IP**, et al. Modelling and mitigating antimicrobial resistance (AMR) through data-driven surveillance, AI-powered drug discovery, and public health intervention design. *Middle East J Appl Innov Multidiscip Res*. 2025;9(2).
- Linus EN, et al., **Shobayo IP**. Vaccine hesitancy and immunization inequity in Nigeria: public health determinants, misinformation dynamics, and health system strategies for improved uptake. *Int J Health Pharm Res*. 2026;11(8):32-56.

HEALTH SYSTEM AND COMMUNITY SERVICE

Volunteer, Electronic Medical Records Transition Sep 2025 – Present

Virginia Department of Health (Near Southwest Medical Reserve Corps), Lynchburg, VA

- Support the transition to electronic medical records across the Central Virginia Health District.
- Co-organizer, LUPHSA Health Fair (Spring 2025 and 2026); community screening and outreach, Ibadan, Nigeria (2018 – present).

SKILLS

Infection prevention exposure: CAUTI and CLABSI prevention rounds, C. difficile, ESBL, VRE, and TB case reviews, NHSN surveillance principles, hand hygiene and sepsis quality work, SBAR communication
Data and analysis: SAS, R, Stata, Excel, Tableau, Python, SQL; data cleaning and quality checks; presentation of findings
Laboratory and safety: Biosafety and infection-control protocols (COVID-19 sample processing), confidential data handling
Training and certifications: Aspire Leaders Program (2026); Data Science Program, TS Academy (2026); CyberGirls Fellowship, Cloud Security (2024); Ethical, Legal, and Social Implications of Stroke Genomics and Neurobiobanking (2023)
