PROFESSIONAL SUMMARY

MSPH Epidemiology student with environmental-health research and a strong record of explaining evidence to broad audiences. First author of a narrative review on air quality, green space, and student mental health; co-author of a machine-learning air-quality publication; and a teaching assistant who turns technical methods into accessible instruction. Interested in clean air, health equity, and communicating science to the public.

EDUCATION

Master of Science in Public Health (MSPH), Concentration: Epidemiology Anticipated May 2027
Liberty University, Lynchburg, VA

- GPA: 4.0. **Relevant coursework:** Research Methods, Epidemiologic Research Methods, Biostatistics, Data Visualization & Spatial Analysis (ArcGIS, Tableau), Social & Behavioral Theory Application in Public Health, Data Analysis.

Bachelor of Science in Biological Sciences Mar 2023
Federal University of Agriculture, Abeokuta, Nigeria

RESEARCH PROJECTS

- **Campus green space, air quality, and mental health among college students** (first author narrative review, 15 studies; APHA 2026): PM2.5 and NO2 exposure was linked to more depression and anxiety symptoms; green space was linked to lower stress and better well-being.
- **Mental health and provider availability across Virginia counties** (first author; 2025 County Health Rankings, Tableau; VPHA 2026): choropleth maps and trend analyses; frequent mental distress ranged 13.5–23.6%, and childhood poverty explained far more variation ($R^2 = 0.51$) than provider supply ($R^2 = 0.08$).
- **High-fructose corn syrup in the U.S. branded food supply** (co-author; USDA database, 447,607 eligible products; APHA 2026): HFCS was listed in 6.6% of products (29,503), giving a reproducible baseline for monitoring.
- **Food insecurity across U.S. states** (group project; SAS, Tableau Prep; 255 state-year records, 2019–2023): average state rate reached 14.2% by 2023, highest in the South.
- **1854 Soho cholera outbreak map** (ArcGIS Online): heat map recreating John Snow's investigation from historical data.
- Co-authored Research Week posters on PFAS exposure, deforestation and malaria risk, and ultra-processed foods (Liberty Research Week, April 2026).

PROFESSIONAL EXPERIENCE

Graduate Student Assistant Aug 2026 – Present
Liberty University, Department of Public Health, Lynchburg, VA

- Translate epidemiologic and biostatistical concepts into clear class sessions and instructional materials for undergraduate audiences.
- Teach class sessions, facilitate discussions, activities, and student presentations, and grade assignments in undergraduate public health courses.
- Organize course materials and administration in Canvas LMS and resolve course-related issues for faculty and students.

Biostatistics and Research Assistant Jan 2026 – Aug 2026
Liberty University, Department of Public Health, Lynchburg, VA

- Developed and facilitated biostatistics and research workshops to improve statistical literacy and applied data analysis.
- Tutored residential and online students in biostatistics; created Excel-based tutorials and instructional materials.
- Supported faculty with data preparation, statistical analysis, and interpretation for public health and epidemiologic research projects.

Research Assistant Jul 2024 – Nov 2024
University College Hospital (UCH), College of Medicine, Department of Public Health, Ibadan, Nigeria

- Conducted health surveys with 100 workers across police stations in Ibadan for an occupational health study on workplace safety and disease exposure, using Kobo Collect for mobile data collection.
- Prepared and presented study reports and supported faculty with data visualization and communication of findings.

PRESENTATIONS AND RESEARCH DISSEMINATION

- Six first-author research posters (APHA 2026, VPHA 2026, Liberty Research Week); co-author on additional APHA 2025/2026 posters; research portfolio with 16 case studies at ipshobayo.github.io/Research.
- Abstract Reviewer, APHA 2026 Annual Meeting (four programs, including Occupational Health and Safety Late Breakers).

PUBLICATIONS AND PRESENTATIONS

Peer-reviewed publications (co-author):

- Edeh CG, et al., **Shobayo IP**. A machine learning-based framework for real-time environmental health risk prediction and spatial air quality intelligence in urban-industrial ecosystems. *Asian J Adv Res Rep*. 2026;20(4):1-20.

- Oladokun VEE, et al., **Shobayo IP**. Integrating sensory evaluation and food safety assessment to improve consumer acceptance and public health outcomes of ready-to-eat snacks. *Asian J Adv Res Rep*. 2026;20(4):268-283.
- Linus EN, et al., **Shobayo IP**. Vaccine hesitancy and immunization inequity in Nigeria: public health determinants, misinformation dynamics, and health system strategies for improved uptake. *Int J Health Pharm Res*. 2026;11(8):32-56.

VOLUNTEER EXPERIENCE

Volunteer & Public Health Outreach Leader Apr 2021 – Present

Sickle Cell Hope Alive Foundation (SCHAF), Ibadan, Nigeria

- Led planning and coordination of genotype screening and awareness campaigns reaching 250+ participants; led volunteer teams in education, counseling, and community engagement.

SKILLS

Communication: Scientific writing, research synthesis, research posters, presentations, teaching and facilitation, plain-language translation of technical material
Data and visuals: Tableau, ArcGIS, Excel, PowerPoint, Microsoft Office; SAS, R, Stata, Python
Research: Literature review (narrative, scoping, systematic), secondary data analysis, environmental and spatial epidemiology

CERTIFICATIONS

- Aspire Leaders Program (2026)
- Data Science Program, TS Academy (2026)
- CyberGirls Fellowship, Cloud Security (2024)
- Ethical, Legal, and Social Implications of Stroke Genomics and Neurobiobanking (2023)
